Pitch Presentation

PeaceFund

The Future of Fundraising and Tracking.

Poland

Ukraine

So, what are the problems we are solving?

► Problem 1

Corruption and transparency issues while distribution of resources due to middle management involved.

► Problem 2

Exuberant Wire transfer fees by the banks and commission fees by for profit management systems involved.

► Problem 3

Mismanagement of commodities due to supply chain issues, human biases and no tracking system.

The Proposed Solutions

► Solution 1

Creating a blockchain based system with transparent solidity backend and real time React based frontend application.

► Solution 2

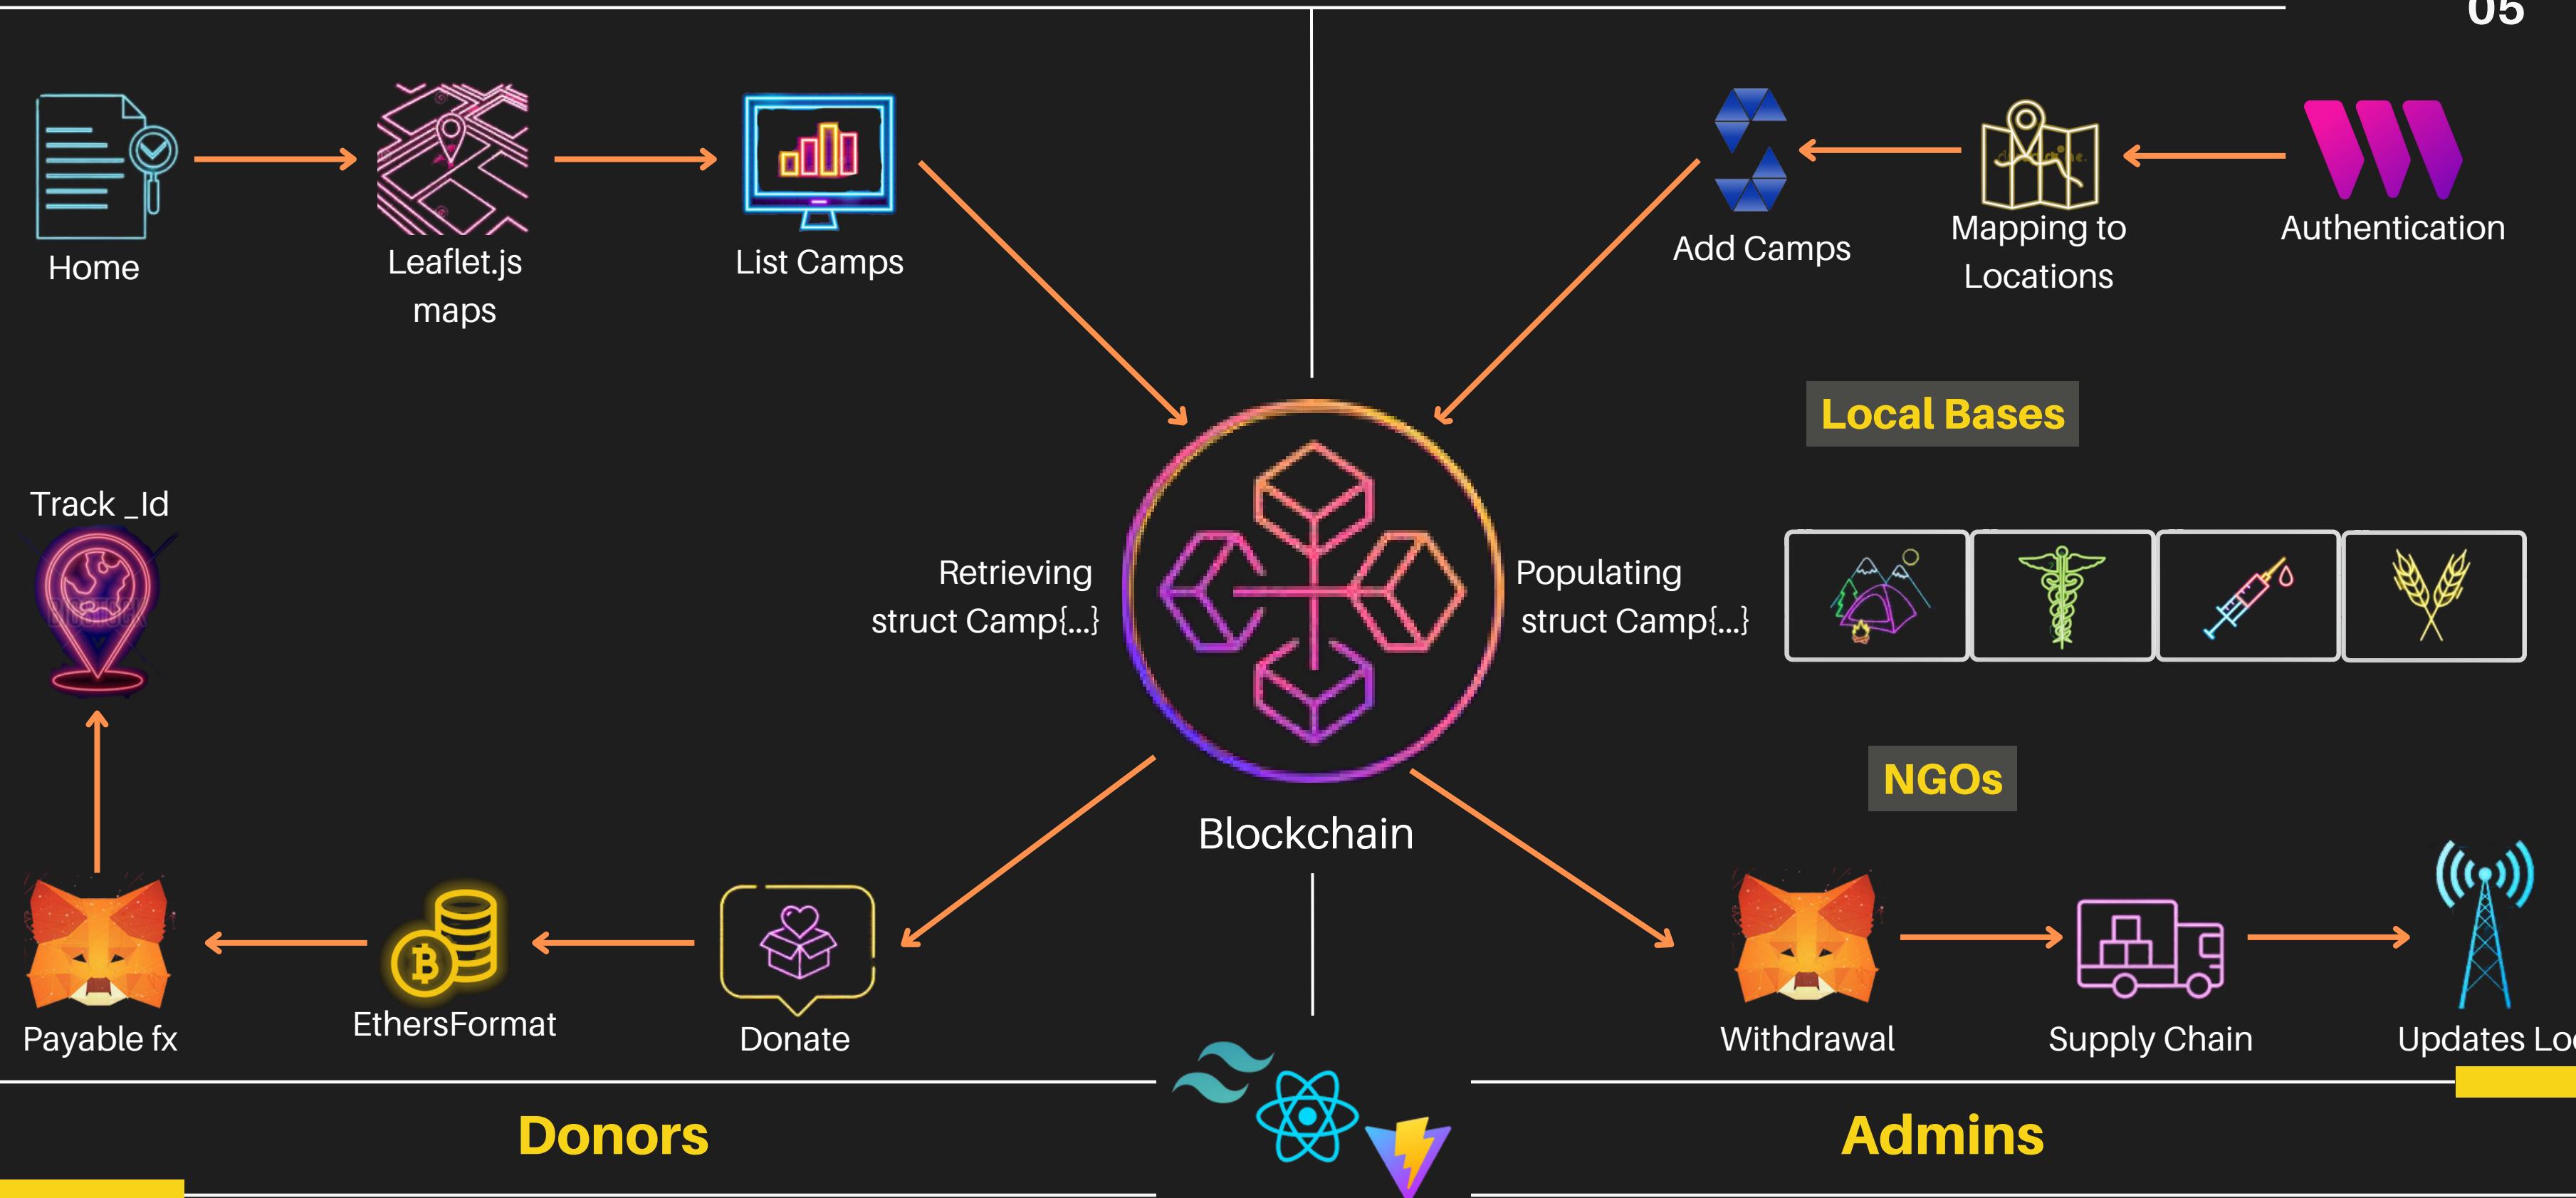

Nil to negligent gas fees for each transaction deployed.

► Solution 3

Location based functionality for up-to-date assessment of shipment's arrival at the destination.

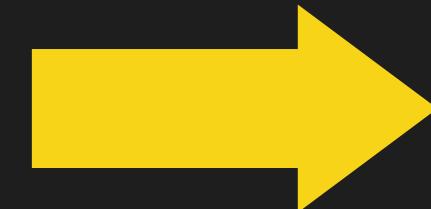

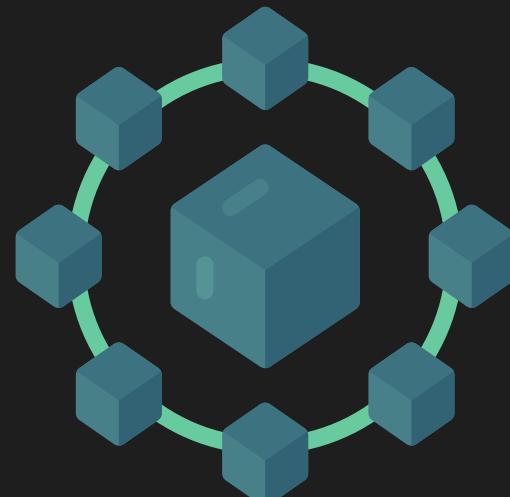

THE PRODUCT

05

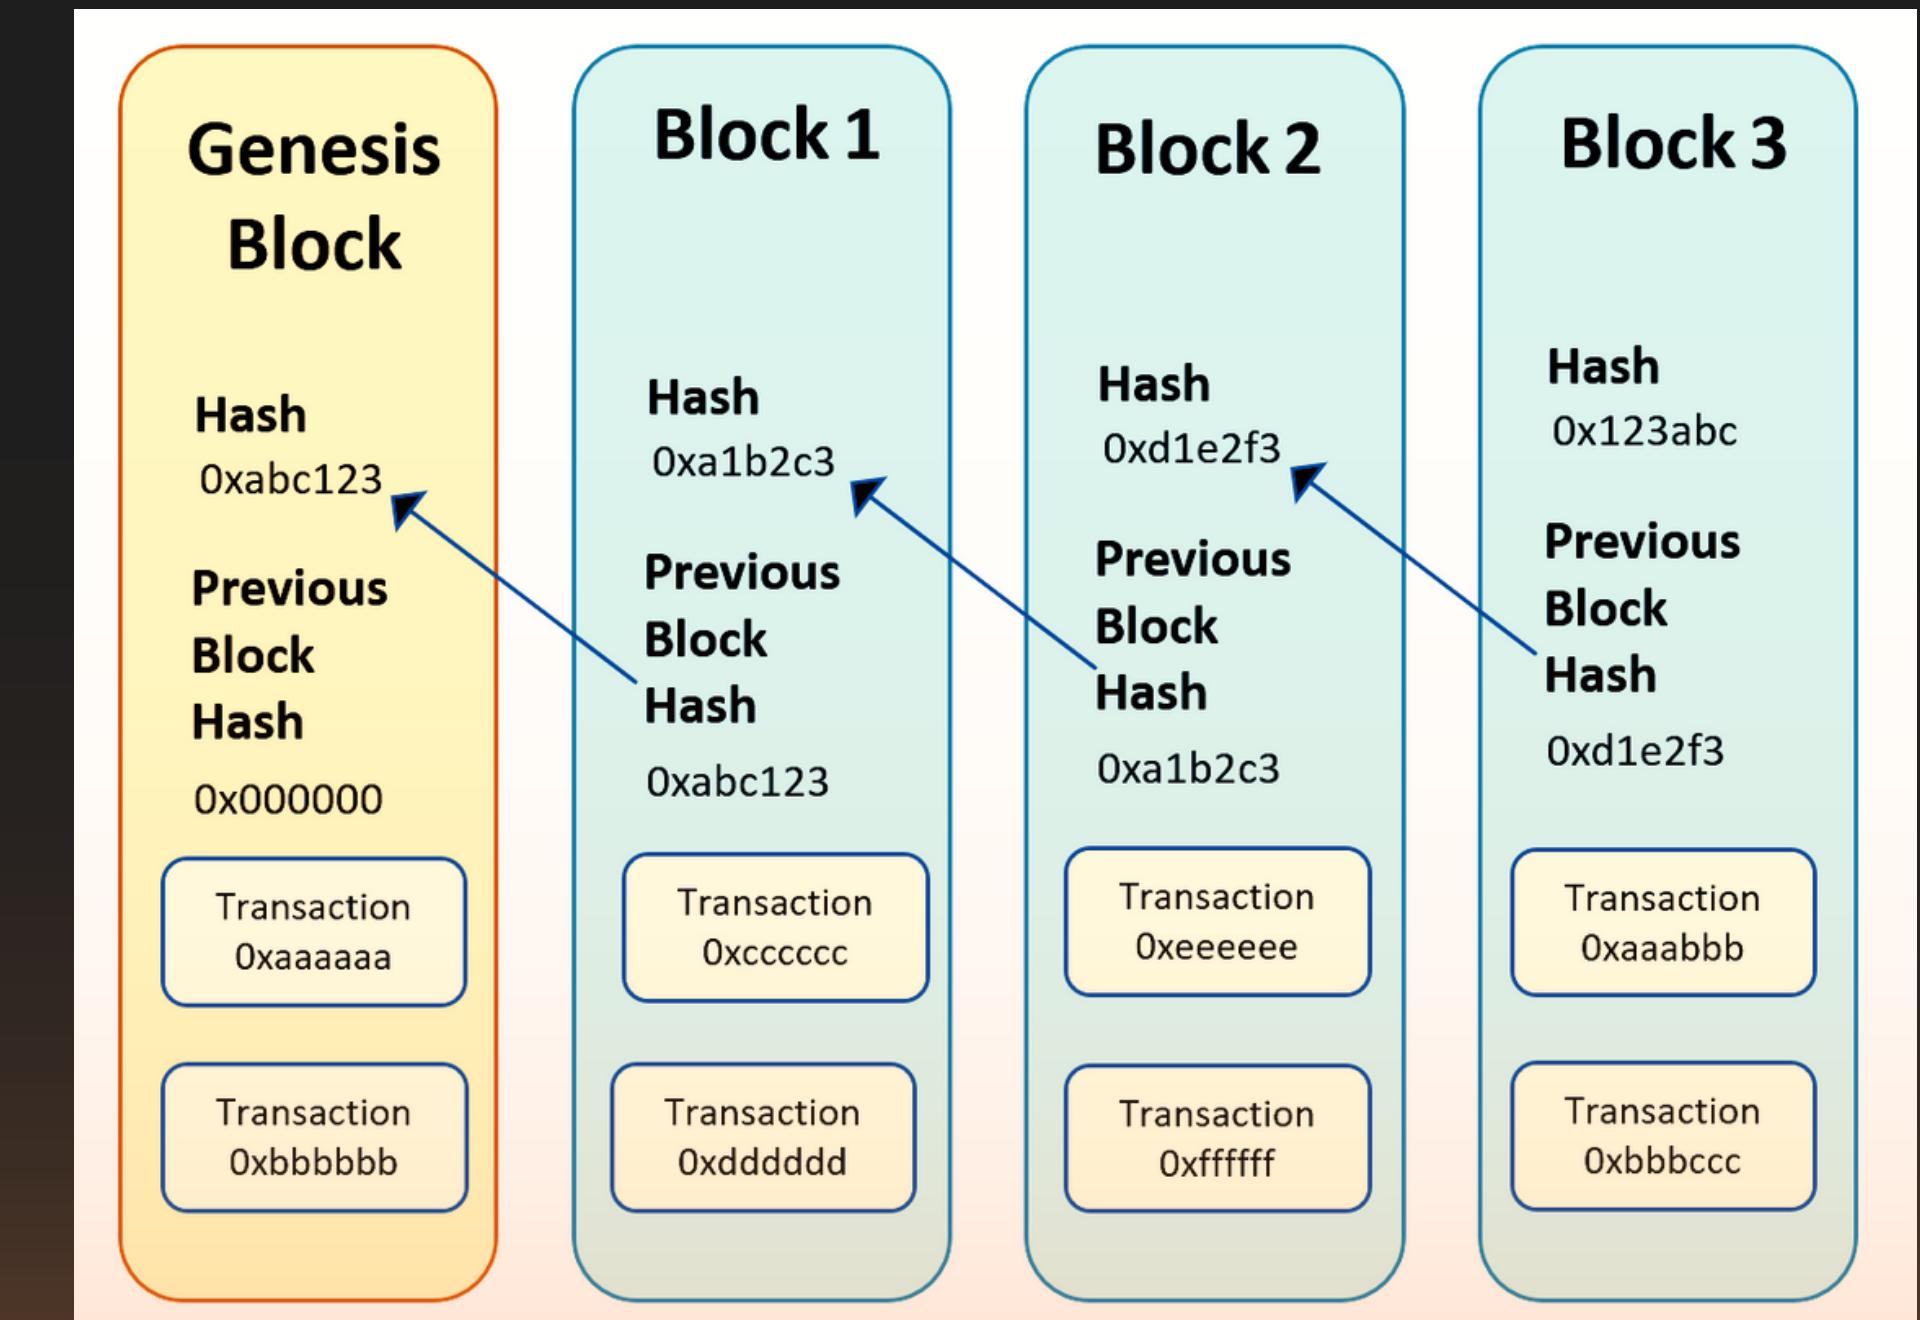

The Blockchain Architecture

06

```
struct Campaign {  
    address owner;  
    string title;  
    string description;  
    uint256 target;  
    uint256 deadline;  
    uint256 amountCollected;  
    string image;  
    address[] donators;  
    uint256[] donations;  
}  
• Hash  
• Previous block hash
```

The USP

1

State of the art Interactive mapping feature using GeoJSON library for a fundraising application.

2

Real-time Tracking system for an accountability-credibility lifecycle of NGOs and Supply Chain players involved.

3

Elevation of Credit for Refugee Camps by removing the commission and fees incurred by Financial institutions involved in the system by disengagement of the same.

Implementation

The image displays a user interface for a donation platform. At the top left is a search bar with placeholder text "Search for campaigns" and a magnifying glass icon. Next to it is a green button labeled "Create a campaign". In the top center is a purple circular logo with a stylized letter "W". To its right is a blue button labeled "DONATE". On the far right is a large white number "08".

The main area features a dark background with a central white box. At the top of this box is a grey button labeled "Start a Campaign". Below it are input fields for "Your Name *" (containing "John Doe"), "Location *" (containing "Location 1"), and a "Story *" text area with placeholder text "Write your story". To the right of these fields is a purple button labeled "Fund Campaign".

On the left side of the white box is a large heading "HOW YOUR DONATION MAKES A DIFFERENCE" above three circular icons, each showing a cluster of blue squares and a white parachute. Below each icon is a caption: "Supporting life-saving activities, such as providing food, shelter and education.".

To the right of the white box is a section titled "Fund the campaign" with a value of "0.0005" and a dropdown menu. Below this is a blue button labeled "TRACK".

At the bottom right is a section titled "Campaign Tracking" with a green progress bar. It includes a message "No donators yet. Be the first one!" and a map of the region from Poland to Russia, highlighting areas like Ukraine, Romania, and Moldova. The map shows major cities like Warsaw, Krakow, Lviv, and Bucharest, along with rivers like the Dniester, Danube, and Donets.

On the far right, there are several status indicators: "9 Days Left", "0.001 Raised of 0.001", "2 Total Backers", and a "Fund Campaign" button.
